

## Other papers on ESCI data

Álvarez-Marrón J., Pérez-Estaún, A. and ESCI-N research group (1994): Seismic structure of the northern Iberian ocean-continent transition from new multichannel seismic reflection data. *Ann. Geophys.*, 12 (Suplement I).

Álvarez-Marrón J., Pérez-Estaún, A., Dañobeitia, J.J., Pulgar, J.A., Martínez-Catalán, J.R., Marcos, A., Bastida, F., Ayarza Arribas, P. and Córdoba, D. (1996): Seismic structure of the northern continental margin of Spain from ESCIN deep seismic profiles. *Tectonophysics*, 264: 153-174.

Álvarez-Marrón, J., Torné, M., Dañobeitia J.J., Brown, D., Pérez-Estaún, A. and Rubio, E. (1996): The southern margin of the Bay of Biscay: a deep image of an incipient subduction zone. *Ann. Geophys.*, 14 (Suplement I).

Gallastegui, J., Pulgar, J.A. and Álvarez-Marrón, J. (*in press*): 2-D seismic modeling of the Variscan Foreland Thrust and Fold Belt crust in NW Spain from ESCIN-1 deep seismic reflection data. *Tectonophysics*.

Gallart, J., Fernández, G., Dañobeitia, J.J., Pulgar, J., Pérez-Estaún, A. and Córdoba, D. (1994): Imaging the deep structure at the northern Iberian Peninsula from High-Density Wide-angle data. *Ann. Geophys.*, 12 (Suplement I): C20.

Gallart, J., Vidal, N., Dañobeitia J.J. and the ESCI-Valencia trough Working Group (1994): Lateral variations in the deep crustal structure at the Iberian margin of the Valencia trough imaged from seismic reflection methods. *Tectonophysics*, 232: 59-76.

Gallart, J., Vidal, N. and Dañobeitia, J.J. (1995): Multichannel seismic image of the crustal thinning at the NE Iberian margin combining normal and wide-angle reflection data. *Geophys. Res. Letters*, 22(4): 489-492.

García-Dueñas, V., Banda, E., Torné, M., Córdoba, D. and the ESCI-Béticas Working Group (1994): A deep reflection survey across the Betic chain (southern Spain): first results. *Tectonophysics*, 232: 77-90.

Pérez-Estaún A., Álvarez-Marrón J., Pulgar J.A. and ESCI-N Research Group (1994): Deep seismic reflection profiles through the Asturian Arc: the Variscan and Alpine structure of the Cantabrian zone (NW Spain). *Ann. Geophys.*, 12 (Suplement I).

Pérez-Estaún, A., Pulgar, J.A., Banda, E., Álvarez-Marrón, J. and the ESCI-N Research Group (1994): Crustal structure of the external variscides in northwest Spain from deep seismic reflection profiling. *Tectonophysics*, 232: 91-118.

Pulgar, J.A., Álvarez-Marrón, J., Pérez-Estaún, A., Banda, E. and ESCI-N research group (1992): "The ESCICANTABRICA-01 Deep Seismic Reflection Profile, a traverse of the Variscan Belt in NW Spain". *Eos Trans. AGU*, 73(43), Fall Meeting Suppl.: 5489.

Pulgar, J.A., Gallart, J., Fernández-Viejo, G., Pérez-Estaún, A., Álvarez-Marrón, J. and ESCIN Group (1996): Seismic image of the Cantabrian Mountains uplift in the western extension of the Pyrenean Belt from integrated ESCIN reflection and refraction data. *Tectonophysics*, 264: 1-20.

Pulgar, J., Pérez-Estaún, A., Gallart, J., Fernández, G., Dañobeitia, J.J. and Córdoba, D. (1994): Signatures of the crust in the Cantabrian Mountains (N Spain) from extensive seismic profiling. *Ann. Geophys.*, 12 (Suplement I): p C31.

Vegas, R., Medialdea, T., Suriñach, E. and Vázquez, J.T. (1994): La deformación intraplaca el centro de España y la interpretación de los perfiles profundos de sísmica de reflexión en las Cordilleras Béticas. *Geogaceta*, 15: 124-126.

Vidal, N. and Gallart, J. (1995): Integrated multicoverage processing of wide-angle and near-vertical seismic reflection data. *Lithoprobe Seismic Processing Facility Newsletter*, 8(2): 57-63.

Vidal, N., Gallart, J., Dañobeitia, J.J. and Díaz, J. (1995): Mapping the Moho at the Iberian Mediterranean margin by multicoverage processing and merging of wide-angle and near-vertical reflection data. In: *Rifted Ocean-Continent Boundaries* (E. Banda, M. Torné and M. Talwani Eds.): 291-308, *KLUWER-NATO Book*.
